

**Speaker**  
**Dr. Stan Hudson**

Dr. Hudson was a geology major at the University of California at Riverside until personal events steered him into theology. A rockhound, he has always maintained a love for earth sciences. He is co-host of a weekly radio program entitled "Sink the Beagle," a lighthearted look at the issues of

origin, using both science and scripture, heard on LifeTalk Radio. He has participated in a university-sponsored dinosaur excavation of the Lance Creek Formation in Wyoming. A trained pastor with a Doctor of Ministry degree from Fuller Theological Seminary in Pasadena, California, he has lectured widely on the subject before young and old with humor and candor.
